

The Best Referral!!

The greatest compliment we can receive is a referral, especially when it comes from trusted professionals in the community. We are proud to share that many of our families come to us through recommendations from other families and their veterinarians. A veterinarian's referral is not only an honor—it's a reflection of the care, health, and quality we prioritize for every puppy and family we serve. We have worked closely with North Fork Vet Clinic for over a decade and they would love to answer all your questions or give you their referral!! They not only own our dogs but have seen all of our adult dogs and puppies through all these years of breeding.

We currently have 5 local veterinarians that own our pups.

Doesn't get better than that!!

To Whom It May Concern,

It is with great confidence and enthusiasm that we recommend **DaintyDoodles** as a responsible and trustworthy breeder of Mini Goldendoodles and Mini Bernedoodles. At **North Fork Veterinary Clinic** in Auburn, we have had the pleasure of working with DaintyDoodles for over ten years, and throughout this time, we have consistently been impressed with the health, temperament, and care of the dogs they raise.

We regularly see puppies and adult dogs from DaintyDoodles in our practice, and they are always well-socialized, well-adjusted, and in excellent health. The team at DaintyDoodles is clearly dedicated to ethical breeding practices, providing proper early-life care, socialization, and health screenings to ensure their puppies have the best possible start.

I can personally speak to the quality of their breeding program, as I and several members of our staff are proud owners of dogs from DaintyDoodles. These dogs have been outstanding companions—loving, intelligent, and healthy—which is a testament to the high standards DaintyDoodles upholds.

If you are considering adding a Mini Goldendoodle or Mini Bernedoodle to your family, we have no hesitation in recommending DaintyDoodles as a breeder you can trust.

Should you have any questions or wish to discuss our experience further, please feel free to contact our office.

Warm regards,
